DETAILED ACTION

Claims 1 and 3-5 are presented for examination.

Applicant's Amendment filed June 30, 2010 has been received and entered into the present application. Claims 1 and 3-5 are pending and are herein examined on the merits.

Applicant's arguments, filed June 30, 2010 have been fully considered. Rejections not reiterated from previous Office Actions are hereby withdrawn. The following rejections are either reiterated or newly applied. They constitute the complete set of rejections presently being applied to the instant application.

Claim Rejections - 35 USC § 102 (New Grounds of Rejection)

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 01/03687 A2.

WO 01/03687 A2 discloses a pharmaceutical composition that is formulated to deliver a dose of phytoestrogen such as lignan, isoflavone, or flavone compounds (see abstract). Suitable lignan compounds include enterolactone (see page 9, lines 36-38

and page 10, line 1). The delivery system is a pharmaceutically acceptable food additive or food supplement (see page 12, lines 13-14). The pharmaceutical composition comprising a combination of at least one phytosterol compound and at least one phytoestrogen compound, the composition can contain pharmaceutically acceptable solvents, adjuvants, or carrier (see page 12, lines 21-25).

Consequently, the reference anticipates the claimed invention defined in claims 1 and 3-5.

Response to Arguments

Applicant's arguments are moot in view of new grounds of rejection.

Conclusion

No claims of the present application are allowed.
